

# About Live 360

Live 360 is an online assessment tool allowing feedback to be requested and collected from peers and colleagues. Set-up, responses and monitoring can all be done from the ease of your PC, or on the go with your mobile device.

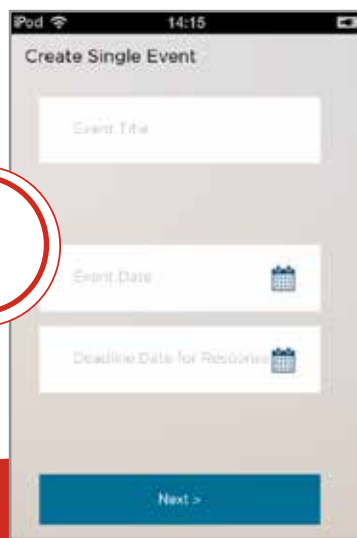

From the home screen, select from the menu options or the pull-out Dashboard sidebar menu.

1

Give your event a meaningful title, specify the date that it occurs and a deadline for feedback responses.

2

## Getting feedback

Create 'Events' to request feedback on presentations, meetings, corporate events or anything else you wish to be assessed on.

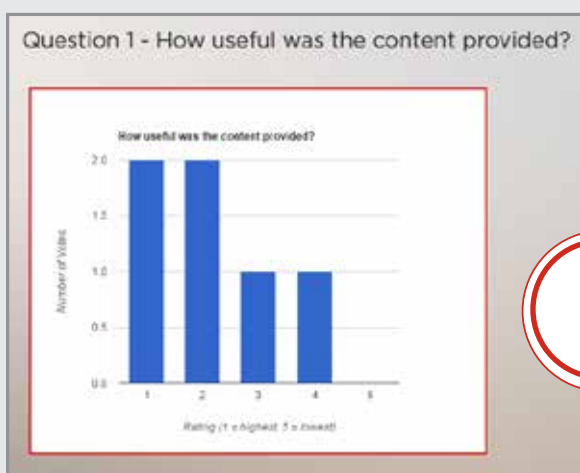

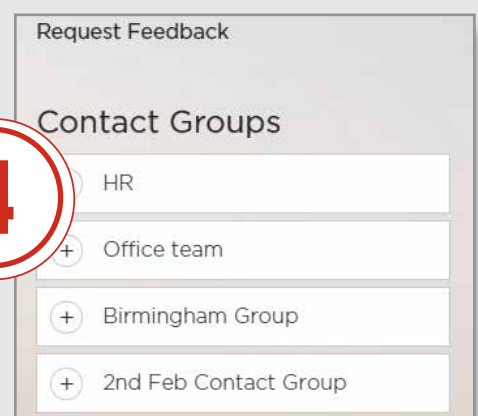

3

Create a list of custom feedback questions to find out exactly what people think of your performance.

Create a group of contacts and request feedback from them all in one go.

4

5

Once your peer feedback has arrived, you can review a breakdown of the results.

Now get started...
